The SIMS Parent App

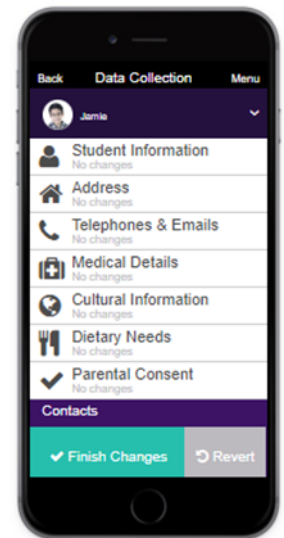

A reminder that we use the SIMS parent app to enable you to view and up-date the data we hold for you in our academy database. You are able to access our parent app and website from a smartphone, tablet or PC – anytime, anywhere. If you do not already use this system, please find below some information.

What you will find in the SIMS Parent app?

- Access to up-date your contact details, so that we always have the most up-to-date information in case of an emergency.
- If you have more than one child at school, you will have access to information for all of your children, from the same app.

Getting started with the SIMS Parent app:

- We will send you an activation email. Simply click on the link from your tablet, PC or smartphone to activate your account. Please ensure that we have been given your most up-to-date email address in order for you to receive your activation link.
- You can then login using your normal Facebook, Twitter, Google or Microsoft username and password.
- From your smartphone or tablet, download the app from the Google Play or Apple App store - search for SIMS Parent.
- From a PC or Windows phone, login online at www.sims-parent.co.uk.

Please note that your activation email is unique to you and should not be used by anyone else. If you require an additional login, then please contact us at school.

Your activation email will expire after 14 days if it is not used. Please contact us at school if you require a replacement after this date.
