

Dear KS3 Parents and Carers

We have published our latest reports for Year 7 to Year 9 which gives you an indication of your child's ERA learning habits in the classroom for the past term.

ERA learning habits are very much linked to the progress and outcomes for students and are a fundamental part of what we believe in as an academy.

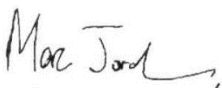

The reason there is no other information on the reports at this time is that we are currently transitioning from a GCSE grade system at KS3 into a more descriptive 'mastery' system. This new version of the reports will still ensure that your child's progress is judged on robust internal assessments at various points throughout the academic year. We are calling these new levels 'mastery' descriptors and the ones which we shall be using are listed below:

Extending
Consolidating
Securing
Developing
Acquiring

There will be much more information about these and descriptors and how they are awarded, once the reports are launched next term.

Thank you for your continuing support.

Yours faithfully

Marc Jordan
Assistant Vice Principal
