

23 February 2021

Dear parents/guardians,

You will be aware that Boris Johnson yesterday published his road map out of lock down. This includes pupils back from the 8th March. We are very much looking forward to having our pupils back but will need to do this in a phased way to allow for testing. Further details to follow.

Schools will be conducting lateral flow testing for all pupils on their return (3 tests in total). To this end, we will shortly be sending out a consent form for permission to conduct these tests and this will include further information. By way of some reassurance, we have been conducting these tests in our testing centre since January 2021 very successfully and have a fantastic team of staff who are fully trained.

I thank you as always for your immense support during this time. We are nearly there.

Many thanks

Mrs Meena Gabbi
Principal
