

# Business at Montsaye

## Overview:

The aim of Business is to inspire learners to think critically about, and appreciate, their role in our local, national and global business environment. Learners will develop skills and techniques which can be applied to any future career prospect. Studying Business will help learners to develop many transferable skills such as working with others, problem solving, risk taking and independent learning. Ultimately it will enable learners to become effective researchers and analysts who can evaluate information and situations. We offer a range of Business options from solely exam content qualifications through to vocational qualifications which embed a coursework and workplace element. All of our staff are experienced and highly qualified and offer examiner insights for the department.

## Intent:

The Business department at Montsaye Academy aims to develop young business students and knowledgeable entrepreneurs. With a combination of teacher led delivery, independent research, teamwork, competition and presentation activities we aim to complement the employability skills that they are developing in other subject areas as well as prepare students for the everyday world of working within or running an organisation.

## Student Vision:

- To develop learners as knowledgeable potential future entrepreneurs
- To provide learners with a key understanding of business terminology, concepts, objectives and the nature of business activity.
- To allow learners to explore real life business issues and scenarios
- To provide learners with an insight into how this subject is going to be useful in their chosen next steps in life
- To prepare learners for the everyday life of working for or running their own business

<b>GCSE Business</b> <b>Exam Board:</b> Edexcel <b>Assessment Method:</b> 100% Examination	<b>Vocational Business</b> <b>Exam Board:</b> OCR <b>Assessment Method:</b> Examination and Project Work
