

Effective Home Learning

Preparing yourself

If possible, find a space that is tidy and organised. Sit at a table if you can.

Avoid distractions when you are working. Unless you need it for research, put your phone away for a while.

If you have siblings or parents who are working too, try sitting and working together.

If you get stuck

Ask a friend or a family member – they might be able to help

Plan your day. Make sure you know what you are doing when and write out a schedule (see the website for a suggested plan).

Keep in touch using your school emails. We're still here to support you. If you don't get a reply, it might be that they are poorly. Copy in another teacher too and we'll work together to help however we can.

During your day

Tick off tasks when they are completed.

Keep active! You are more likely to focus better on your work if you plan active breaks in between tasks. Walk, workout, dance, whatever keeps you moving!
