

Montsaye Academy Revision plans. Year 11X2 2023

Rationale: to drive up progress of pupils and ensure robust plan of revision and exam preparation

Plan 1 Half term 13th February to 17th Feb

Plan 2 20th Feb to 3rd of March (to include trial exam revision)

Plan 3 13th March to 31st March (to include plans for Easter revision)

Plan 4 17th April to the 12th of May (to include bank holidays)

Examples of what to include:

Week	Classwork	Homework	Resources
1	Subject staff to map out what will covered lesson by lesson. This will need to be the 'hard' content that children need to have an expert there to help them with.	Recall type revision tasks, work that can be done without a teacher present. This needs to be specific, for example, Create a mind map on.... Create 5 revision cards on.... Etc etc	Specific links on websites, detailing which questions/tasks you need them to complete. Or which pages to read etc.

Week	Revision plan for half term	Resources
1 (13 th February to 17 th February)	<p>Revise Cell biology, Energy and Atomic Structure</p> <p>You will need to answer the questions in each booklet, many of the answers will be found in the specification, which are also provided. Read the question and then read the specification statements to see if you can find the answer.</p> <p>E.g. Question 1 on the physics topic of 'Energy' states 'Define a system'</p> <p>Then if you read the first statement on the specification it states:</p> <div data-bbox="450 906 1789 1102" style="border: 1px solid black; padding: 5px;"> <p>6.1.1.1 Energy stores and systems</p> <p>A system is an object or group of objects. There are changes in the way energy is stored when a system changes.</p> </div> <p>So your answer to question 1 is 'A system is an object or group of objects.'</p> <p>For some questions the full answer is not on the specification.</p> <p>E.g. Question 1 on the biology topic of 'Cell biology' states 'Draw and label a typical plant and animal cell'. There is no picture of this in the specification, only a description, so for this question you would need to use a revision book or online resources (e.g. BBC Bitesize).</p>	<p>Specifications and exam questions sent out of Go4Schools</p> <p>PG online Revision guide</p> <p>Cell biology- Pages 2-21</p> <p>Energy- pg 246-259</p>
