

## MONTsayE ACADEMY HOME LEARNING SUPPORT

You currently need to do your learning from home. There are a range of resources ready for you to use on the topics you have been studying in your **Photography** lessons. The tables below contain links to the relevant topics in the **learning the basics for Photography**.

- Work out which term we are in by checking the date. Click on the link and this will take you to the relevant topic.
- From there, find the last lesson you did in school and start work on the next lesson. You then work through all lessons unless specific lessons are indicated.
- You can also use the previous resources to recap key words, facts and concepts from previous lessons. This resource can also be used for reminders when completing personal challenges for the coursework.

**Lessons usually include a question section reviewing your understanding of the main ideas and then you need to follow instructions to complete some written work.**
