

Meet our Sixth Form Student Leaders

Amalia

I am studying History, English Literature and French. After sixth form, my plan is to attend university to study Law. In the future I would like to have a career in law or politics.

I would say that it is very important to stay on top of any home work or notes, otherwise they can build up and become too much to handle. I think it's important to make any revision resources (such as flashcards) as you go along and not wait to make them until two weeks before your exams. it may feel like a hassle but trust me it will be such a great help when your exam season starts.

As a Student Leader, I hope to be able to improve our sixth form so that we can help students achieve the best they possibly can. I think it is incredibly important for our sixth form to be a safe space for our students and have the capabilities to support all students through the stress of exams, university applications and moving towards the future.

Edward

I am currently studying Maths, Music and Performing Arts (Drama). I aspire to attend university to carry on studying music or possibly something in the performing arts industry.

My top tip for student coming up to sixth form is to make sure you are very organised and keep on top of homework and coursework.

My main priority as student leader is to make sure that all students in the school get the support and help they need within education to achieve the high standards within our school and sixth form.
